SPORT

POLO Mallet AND CARRIER

Premium polo mallets are made especially for us by one of the most celebrated stick makers in Argentina, MS Tacos. We only provide the finest quality of sticks for professionals and patrons. The key difference between the standard and the premium sticks is it's balance and this comes down to the quality of the cane. Only 2% of all canes are suitable for this type of premium stick. The better the cane, the lower the flexibility in the upper part of the stick, and this is driven by the number of nodes (or knots) at the handle end of the cane - the more nodes the better the stick. The point of flexion occurs much closer to the head of the stick in premium sticks. Weight and size are personal preference. As your game improves you will want better sticks.

SPORT

CASABLANCA POLO HELMET

Made by Casablanca this low profile polo helmet has a padded leather. Using new advancements from d3o, our technology partner, we have been able to reduce the weight of the NV by 20% without compromising safety.
